

SKYWARN NET SCRIPT

STANDBY MODE:

This is [CALLSIGN] with Monroe County SKYWARN. We are not in Severe Weather mode at this time, but due to the risk of severe weather we're monitoring and also announcing relevant NWS updates.

--Summarize Watches

--Summarize Warnings

--Any other weather hazards

Normal activity on this repeater is allowed, however, stations should keep all transmissions short to allow for break-ins.

[CALLSIGN] standing by.

FULL ACTIVATION:

All stations, stand by for activation of Monroe County SKYWARN net:

This is [CALLSIGN] with Monroe County SKYWARN. The net is now in full activation and standing by for check-ins and reports. *[Summarize current county warnings]*

Please check in by giving your callsign twice (at least once phonetically), your name, and location. You need only give your location information once during your initial check-in with Net Control unless you are mobile. *[List reportable criteria]*

Tornadoes on the Ground, funnel cloud formation, wall cloud, hail of any size, winds over 35mph or greater "measured", flooding and other actual storm damage (OR REPORTS AS DIRECTED BY THE NWS)

Remember, the Net Control operator isn't as familiar with your area as you are. Please make your reports as specific as possible, including proximity to nearest city and any cross streets or intersections; if mobile give mile markers. Giving the time that the event occurred is also important.

Please pause briefly after keying your mic to allow the repeater to come on line before you begin speaking.

If at any time you must leave the net, please notify Net Control and wait to be acknowledged before securing.

[CALLSIGN] standing by for check-ins and reports.

UPDATES:

This is [CALLSIGN] with Monroe County SKYWARN. The net is full activation and standing by for check-ins and reports. (*summarize Watches & Warns*)

[CALLSIGN] standing by.

Post REPORTABLE CRITERIA (tornadoes/funnel clouds, rotating wall clouds, significant hail, blocked roads & structural damage) to NWS web report. Occasionally NWS asks for other criteria. Water covering roads to be entered into web report, as it could cover holes or washed-out roadways.

- Call WARNINGS
- Call WATCHES
- Call SIGNIFICANT WX STATEMENTS

Very active severe weather:

- Call TORNADO WARNINGS
- Call SEVERE THUNDERSTORM WARNINGS

CLOSE:

This is [CALLSIGN] with Monroe County SKYWARN. At this time, the warnings have expired/have been cancelled. Are there any further weather or damage reports?

--THEN--

Hearing no further reports, I will now return the repeater to normal amateur use. Thanks to everyone for their participation, as well as KE4VQM for the use of this repeater.

[CALLSIGN] Clear.
